

FLINTSHIRE churchyard sites with younger yews

CAERWYS St Michael SJ1273872860 1996 CPAT

CPAT described 'a mix of trees and bushes of no great age'.

HAWARDEN St Deiniol SJ3154565919 1996 CPAT

CPAT described 'the oldest yews to either side of the south porch; and a large number of 19thC yews'.

HOLYWELL St James SJ1853376276 29/3/15 Tim Hills

On a site shared with St Winifred's chapel, the one young yew grows SW of the church.

HOPE St Cyngar/St Cynfarch SJ310584 1/10/2007 Tim Hills

CPAT described that '5 yews, one in the rectory garden, encircle the church, with a 6th closer to the centre of the churchyard'. There was a notice in the churchyard extolling the virtues of yew and a millennium planting, but no trees here of great age.

LLANASA St Cynderyn SJ106814 7/9/2004 Tim Hills

Male and female probably in the range 8'/10', growing against the north wall.

MOLD St Mary SJ2369364166 1996 CPAT

CPAT recorded that '19thC yews line the path to the vicarage. The church is surrounded on the north and east by a mix of trees, mainly beech'.

TRELAWNYD St Michael SJ0890479634 1996 CPAT
CPAT described 'clipped 19thC yews'.

WHITFORD St Mary and St Bueno SJ14617818 7/9/2004 Tim Hills
3 yews: (1) male 10' 1" at 3' (2) male approx. 11' (3) Probably in the region 10'/12'
