2015: The female yew, growing close to the church entrance on the south side, presents as two separated fragments, each carrying healthy foliage. Dark stains to the interior surfaces suggested fire or smoke damage.

Girth - These indicate that this is not an easy tree to measure with consistency
2009: 4.59 cm at 0.6m - D. Kenny
2013: 14' 7'' at 1' and 14' 10'' (452 cm) at 2' - P. Norton
2015: 4.48 cm at 0.6m - T. Hills
