

EAST SUSSEX churchyard sites with younger yews

ALFRISTON St Andrew TQ52160300 12/10/2011 Tim Hills

A vague reference to there being an old yew here. It is possible that in old pictures an ancient oak has been mistaken for a yew.

DITCHLING St Margaret TQ325153 28/3/2004 Tim Hills

Young only here.

PLUMPTON St Michael TQ357135 6/7/1999 Tim Hills

A yew with 5 stems radiating outwards from ground level.

SEDLSCOMBE St John the Baptist TQ776188 13/10/2011 Tim Hills

A web site describes the churchyard 'full of yew trees'. None are of note.

STREAT Parish Church TQ351152 6/7/1999 Tim Hills

Many stems from a 1' high bole.
