

FEERING

All Saints Church, Feering, Essex Grid ref. TL87232040

The yew grows 39' SE of the church. Girth of 2m 97cm (9' 9") was recorded at 40cm above the ground. There is no obvious explanation for the muddy water appearing to be coming up from a gap in the trunk.

The yew grows 34' south of the church. Girth was 3m 85cm (12' 7") at 1m above ground level, again with water coming up from a gap.
