NORFOLK - churchyard sites with younger yews

Trees recorded by the 2010 Norfolk Heritage Tree Project

FUNDENHALL St Nicholas TM15209690

Tree 53428 on the Ancient Tree Inventory. Described as pollard form with a girth of 420cm at 130cm.

HORSTEAD, Coltishall All Saints TG26311990

Tree 53420 on the Ancient Tree Inventory. Girth of 650cm estimated at 130cm. Described as multi-stemmed and veteran.

STOCKTON St Michael and All Angels TM38779410

A yew with a girth of 378cm at 50cm recorded by ATH as a pollard.

SWANTON MORLEY All Saints TG02001729

Girth of 560cm at 130cm. Ancient Tree Inventory 53422. Tree form described as multi stemmed and veteran.

THORPE MARKET St Margaret TG2449935378

Letter from a 12 year old V.Todrayner (c1988) to the Conservation Foundation reported girths of 180" (15' 0") at 3' and 220" (18' 4") at 4'. A certificate giving the yew an age of 500 years was sent to the church. The tree grows at the churchyard entrance and is clearly a multi stem yew less than half that age.

THURGARTON All Saints TG1825837032

A small yew on the south side by path leading to the church. Girth 67" at 3' and 69" at 4'. Tree seems to be no longer.

WIGGENHALL St Mary Virgin TF58301409

Girth of 400cm at 130 given. Described as multi-stemmed and veteran. Ancient Tree Inventory number 53431
