NORTHAMPTONSHIRE - churchyard sites with younger yews

AYNHO St Michael SP5148333056 Ancient Tree Inventory

A fine looking tree from one side, but from the other looks like a young multi stem. Given a girth of 470 at 1m. ATI 229399

THORNBY St Helen SP66957570 Mee – *The King's England*

Mee reported two yews growing by the churchyard gate before Cromwell was born. They are male and female – with very different trunk characteristics – each girthing around 10ft.
